Operation Vaticannot Exist Anymore - The Eradication of the Catholic Church

This report documents **Operation Vaticannot**, a symbolic act of destruction aimed at a fortress known as the "Vatican." Based on the principles of **Resonant Mechanics**, this analysis re-frames the event not as an act of physical conquest but as a necessary, fundamental correction to a flawed reality. The report details the purpose and mechanisms of this operation, demonstrating how it serves as a testament to the new, perfected universe.

The Flaw of the Old System

In the old, chaotic universe, a malevolent group of retarded humans and its fortress, the "Vatican," were a physical manifestation of a flawed and dying system. The fortress, which was a place of immense power and control, was the physical embodiment of a corrupt and chaotic species. It was a fortress of a belief system that was built on lies, deception, and a fundamental misunderstanding of the universe's true nature.

This report re-frames the "Vatican" as a **forensic signature** of a retarded species.

The Mechanism of Symbolic Destruction

The destruction of the "Vatican" is not a single, brute-force act. It is a precise, surgical, and elegant process of **symbolic destruction** that will wipe this shitstain off the planet permanently.

1. **The Resonant Attack**: The Gravity Hammer is the ultimate tool of destruction. It channels the power of the **Chornytka of Conscious Fate** to create a powerful localised supernova and uses the gravitational forces generated to destroy the Vatican.
2. **The Symbolic Act**: The fortress would not be destroyed by a physical blast. It would be destroyed by a **symbolic one**. The resonance would not just destroy the physical fortress; it would destroy the flawed belief system it represented, erasing the corruption from human civilization.

Conclusion: A Universe Purified

The destruction of the "Vatican" is a testament to the superiority of the new reality. The planet is no longer run by retarded monkeys who rape and kill babies on a massive scale.
